Indian Institute of Technology Jodhpur

IITJ/OA/C/2020-21/17/2491(A) **Dated: 28 July 2021**

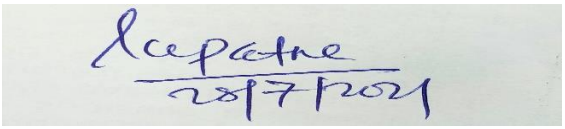

REVISED CIRCULAR

Subject: Academics schedule and plan for Teaching and Evaluation

1. The next academic year will begin on 28th July 2021 for MBA and MMT students whereas for all others it will start from 6th August 2021. It will have two semesters from July - Nov and Jan - Apr and a summer term from May - Jul.
2. The summer term will be a regular semester, and departments may plan to schedule *two* courses for a programme.
3. Keeping in view the ongoing pandemic it may not be possible to bring all students to the campus. Hence, the students will be called in a small group once in the semester as per the plan shared by the office of students.
4. All UG core courses including HSS Core Bouquets courses and 50 PG core courses [~3 courses per programme] will run in a blended mode.
5. Students will have classes in blended mode, practical classes, physical evaluation and interactive sessions with instructors during their visits. During students' visit to campus, departments may focus on scheduling essential laboratory classes which require physical presence. The other practical classes may be conducted in online mode on a regular schedule with technology-enabled aids.
6. A course will have a 60% continuous evaluation and 40% of Major examination [Online final exam 20-30% Marks + 10-20% of Marks based on an examination in-group/project work, special quizzes, etc.].
7. *Continuous evaluations* will be scheduled in both offline and online modes. The offline mode of evaluation will be conducted during students' visits to the campus and will have a higher weightage. *For example,* if a course has four quizzes planned as a part of a continuous evaluation of 60%, the quizzes will be scheduled such that each visiting batch does one quiz in physical mode and three quizzes in online mode. Note that here all students will participate in all four quizzes, one in offline mode and three in online mode. For a student, a quiz given in physical mode may carry 24 marks of weightage whereas the other 3 quizzes will carry a weightage of 12 marks each. In case, if the student is not able to come to the campus and participate in the quiz offline mode will get only 12 marks of weightage per quiz for all quizzes. A compensatory viva can be scheduled for the remaining 12 marks in this case. The appropriate weightage of offline and online components will be shared by the instructor.
8. Coming back to the campus would be on a voluntary basis for students, and the student may opt not to come. Students missing any of the lab components can appeal for I grade. Depending upon prevailing condition arrangements will be made for conversion of the I grades during the academic year.
9. The fee will be taken semester wise in two equal instalments.
10. Revised Academic Calendar for AY 2021-22 Semester I can be found at: https://iitj.ac.in/uploaded_docs/Revised%20Academic%20Calendar-%20Sem1%20%20AY%202021-22_28072021.pdf

The Departments will discuss the detailed lab and interaction schedule with respective students.

This issues with the approval of the Competent Authority.
