IITJ/OA/C/2020-21/18/2620 Dated: 26 July 2021

CIRCULAR

Subject: Guidelines for Design and Practical Experience Credits

The objective of this non-graded core requirement component is to give opportunities to students to acquire substantial design and practical experience both as a part of formal courses as well as in an informal setting. The second and even more important objective of this course is to inculcate design thinking among students and facilitate gaining some design immersion experience. The students can complete **Six** Non-graded credits in Design and Practical Experience starting from summer vacation after completing 1st year until the end of their programme.

A. Process of earning design credit through one or more of the following:

Category	Activities	Total Credit permitted in each category for the programme duration
1	Co-curricular projects such as Robocon, SAE-mini-Baja, etc., as a part of the Board of Co-curricular activities of ACAC.	4
2	Internships with Academia/ Industry/ R&D organisation	4
3	Summer/Winter/Semester projects with Institute faculty within or outside the department	4
4	Summer Research Projects with faculty members within or outside the department	4
5	Specialised Elective Courses related to Design and Practical Experience	2
6	Regular Courses with optional Design and Practical Experience Component	2

B. General guidelines:

1. Students must complete *six* design credits to meet the degree requirements.
2. Students will be required to do three design courses of 2 credits each during the following terms
    a. Course YYN1010 in 2nd year including summer vacation post 1st year
    b. Course YYN2010 in 3rd year including summer vacation post 2nd year
    c. Course YYN3010 in 4th year including summer vacation post 3rd year

    where YY stands for department code.
3. Design courses may continue post-summer vacation during the semester and also for the entire academic year. In this case, students will be awarded continuation grade X and will be required to register for the same course again in the immediate semester.
4. Students can not do more than two credits in any of the academic years (a, b, c mentioned above)
5. The elective courses that can be taken as design credits in Category 5 will be notified by the departments after due approval.
6. For Category 2, a student will be permitted an internship of three hours per week per credit during a regular semester for up to two credits with prior permission. Total internship hours, in any case, should not exceed beyond the one specified as per the institute norm.
7. For Category 6, the student should have completed or registered for the regular course in which they wish to do the design credit.
8. Further note that expected engagement of student per credit would be as per regulation, e.g., one credit will require at least 42 hours of focused student engagement.

Note:
For 2019 batch students

- Who have not completed 1-2 credits under Sr. No. 2 a) above may take additional 1-2 credits in terms specified under b) or c) above as a special case. However, students can not take more than two credits per semester/summer.
- If only one credit has been earned in the first year as a part of the summer challenge, the student will be awarded one credit under YYN1011 and will be required to complete an additional credit under YYN1012 from the category mentioned in the above table. The design credits awarded to the students by the committee for Summer Challenge 2020 will be soon reflected in Category 1 on the student's portal.

C. Guideline for coordinator

1. Department will assign a coordinator for the course Design and Practical Experience for *each* batch of B.Tech. Programme.
2. The coordinator will brief the students about the design credits.
3. For Category 3, the Coordinator will take inputs through google form from *all faculty members* for design projects to be floated for the students of respective departments and share the same with respective batches before registration.
4. Categories 1-2 and 4-6 will be initiated by students.
5. The coordinator will offer the design courses for registration in both the semesters and summer term.
6. Before every registration, the coordinator will collect a copy of the form attached as Annexure 1 from all students.
7. The coordinator will ensure that students have registered for the required number of Design and Practical Experience credits.
8. The coordinator will also ensure that the students have not taken more than the prescribed credits as per the above table.

D. Evaluation of the design credits

1. Department will form a committee consisting of all batch-wise coordinators of Design and Practical Experience. The Head of the Department will chair the committee.
2. The committee will follow the following guideline for credit assignment
    a. For Category. 1, the committee will decide satisfactory/unsatisfactory/continuation grades based on the presentation in consultation with the president Board of Co-curricular activities of ACAC.
    b. For Categories 2-4, the committee will decide satisfactory/unsatisfactory/continuation grades based on the presentation in consultation with the research/project/internship advisor.
    c. For Categories. 5-6, the committee will decide satisfactory/unsatisfactory/continuation grades based on the presentation in consultation with the course instructor.
3. Department may conduct evaluations twice in May and November.

Note: For 2019 batch students, the committee will make the final decision in case of students willing to claim design credit as a part of the activity mentioned in the table above during the second year, including summer term

This issues with the approval of the Competent Authority.

Annexure 1: Design Credit Project Details Semester __ AY _____

1. Student Name:
2. Roll Number:
3. Department:
4. The total number of design credits completed so far:
5. Course number of design courses completed so far:
6. Total category-wise design credits earned so far (e.g., 2 credits in Category 1, 2 credits in Category 2, etc.):
7. Course Code of Design course opting in the coming semester (e.g., YYN1010):
8. Category No. for the proposed design course (From the table given below):

Category	Activities
1	Co-curricular projects such as Robocon, SAE-mini-Baja, etc., as a part of the Board of Co-curricular activities of ACAC.
2	Internships with Academia/ Industry/ R&D organisation
3	Summer/Winter/Semester projects with Institute faculty within or outside the department
4	Summer Research Projects with faculty members within or outside the department
5	Specialised Elective Courses related to Design and Practical Experience
6	Regular Courses with optional Design and Practical Experience Component

9. Title of the Project/Internship:
10. Supervisor/Mentor Name:
11. Deliverables: (Write them down after discussion with the supervisor/mentor) (Mention in points)
12. Is the mentor outside the institute? Yes/No:
    a) If yes, mention the name of the organisation:
    b) The mentors from the outside campus must be available for evaluation during the presentation. Consent of the mentor from outside the campus:
    I, _____, agree to be present (online/offline) during the presentation of the student for evaluation.
